

## **16 PEACE, JUSTICE, AND STRONG INSTITUTIONS – Lukas Melnitzky**

Promote peaceful and inclusive societies for sustainable development, provide access to justice for all and build effective, accountable, and inclusive institutions at all levels.

This goal is about the fact that many people don't have access to the law or a just life. There is corruption in every region of the world. In May 2022, a record was broken with 100 million people already forcibly displaced from their homes. With the help of this goal, it was possible to reduce the homicide rate by 5.2 percent from 2015 to 2020. By 2030, they want to reduce the rate significantly. Unfortunately, a third of the women in the world are still afraid to be outside alone at night. In summary, we know that all of these forms of violence can definitely be avoided.

But there are also sub-goals that need to be achieved:

16.1: Significantly reduce all forms of violence and violence-related mortality everywhere.

16.2: End the abuse and exploitation of children, child trafficking, and torture against children.

These are a few examples and there are many other sub-goals.

As a small or somewhat larger project, you could collect donations and donate them to security in Africa as a start. These donations should be used to create better security for everyone. Since the expansion of security requires a lot of money, this project would have to be carried out on a large scale. With help from everyone, we can make our way towards success.
